North Seattle
Do your part to protect Puget Sound

Preventing polluted runoff is the key action to protect our waterways.

Be part of the solution! By slowing and cleaning runoff on your property, you are positively impacting the whole system. Rain gardens and cisterns on your property are a great way to start. One residential rain garden can divert 70% to 100% of the rain runoff from a property.

With every storm, rain carries pollutants off our roofs, driveways and other hard surfaces to local creeks, Lake Washington and Puget Sound. During big storms, the sheer volume of this “stormwater” can cause sewer overflows, and erode hillsides and stream banks. RainWise rain gardens and cisterns can manage this runoff with your help.

RainWise is a rebate program that helps eligible* property owners manage stormwater by installing rain gardens and/or cisterns on private property. This prevents flooding, adds attractive landscaping, and can provide water for summer irrigation.

- Nearly 2,000 projects completed in Seattle
- Project cost can be covered up to 100%
- Average residential rebate amount is $4,350

Get RainWise with your neighbors!
When you and your neighbors choose the same contractor, the process can be more cost-effective for everyone...and more stormwater will be managed on site. Win-win! Contact us and we will help you organize a “cluster” project.

What your neighbors are saying about RainWise:

“People walk by all the time and comment on our rain gardens. It’s wonderful to know that they also are helping Puget Sound – a win-win.”

“We are thrilled to be a part of Seattle’s RainWise program and doing what we can to help our Sound.”

“With my cisterns, I can use the water in my garden during the summer and help manage stormwater in the winter!”

*To receive a rebate, you must live in an eligible combined sewer overflow (CSO) basin.
Rebate varies from $3-4 per square foot of roof area captured, with a minimum of 400 square feet required for the rebate.
How much will my rebate be?

Your rebate will be based on the square footage of roof area being managed. A consultation with a contractor will include an estimate of the rebate amount and a discussion of options available for your property. Your final cost (if any) will be the total project cost, minus the rebate amount. RainWise rebates cover 60-100% of project costs and are taxable under federal law.

North Seattle RainWise Contractors

**Steps to becoming RainWise:**

1. **Check eligibility:** Use our eligibility map at rainwise.seattle.gov.
2. **Contact contractors**: Choose contractors from the list we’ve provided to the right.
3. **Your contractor will handle pre-inspection, build, and post-inspection.**
4. **Get your rebate!** Submit your rebate package and receive your rebate within 6-8 weeks.

**Want inspiration?** Check out installations on our website at rainwise.seattle.gov!

**FAQ**

*How do I choose a contractor?*

It’s kind of like choosing a roofer or plumber — who do you want to work with? Check their websites and references, get suggestions from neighbors, have a consultation with more than one and see whose ideas and pricing fit best for you. These contractors all have 10 hours of RainWise training, and they are licensed, bonded and insured. Please evaluate them on their experience.

*Having trouble connecting with a contractor?* Email rainwise@seattle.gov, we can help!

Your neighbors are RainWise! Plan an outing to check out some rain garden and cistern installations. These RainWise neighbors have kindly consented to have their properties listed on this map, and invite you to come by and look at their rain gardens and/or cisterns. Please respect their property and observe from the sidewalk only.

Choose a color-coded cluster and match up the addresses!

The orange line above marks the Ballard rebate area. Other areas of the City are also eligible – indicated in yellow at right. Tell your friends to check their eligibility at rainwise.seattle.gov!
